

Staff Report

TO: Honorable Mayor and Members of the City Council
FROM: Christopher Boatman, City Manager
BY: Darron Usher, Principal Management Analyst
DATE: August 4, 2026
SUBJECT: Proposed Updates to the 2025-2027 Strategic Plan Priority Order

Description: Consider approval of proposed updates to the City's Strategic Plan to reflect the City Council's most recent priority-setting direction and establish the recommended order of priority: (2) Police Department Station; (15) Funding 30 Acre Development; and (4) Animal Shelter Expansion.

Motion:

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to approve the proposed updates to the City of Beaumont Strategic Plan.

Recommendation:

Staff recommends that the City Council approve the proposed Strategic Plan update on the Consent Calendar and authorize staff to revise the plan to reflect the updated priority order identified through the Council priority review process.

Discussion:

At the January 20, 2026, City Council meeting, staff presented a discussion item seeking direction regarding proposed updates to the 2025/26 Strategic Plan. That report identified the need to keep the Strategic Plan current as projects are completed, funding conditions change, or initiatives require updated project management direction. The prior discussion specifically addressed the completion of the Second Street Widening Project, the reassignment of funding to support the Pennsylvania Grade Separation Project, and whether the Police Department Station should be separated between design and future construction/funding phases.

Since that discussion, staff continued the Strategic Plan review process and compiled the City Council's updated targets and goals by priority level. Based on that review and direction, staff recommends updating the Strategic Plan to establish the following priority order:

Strategic Plan Target	Suggested Priority
Penn Grade Separation	1
PD Station Design, Funding, and Construction	2
Stewart Park Phase 2	3
Animal Shelter Design and Funding	4
Sports Parks	5
East Oak Valley Parkway	6
Potrero Benefit	7
1st Street Widening	8
2nd Street	9
Recycled Water Permit	10
Road and Bridge	11
Recruit and Attract	12
Community Center	13
Implement Parks Master Plan	14
Citywide Facility Needs Assessment	15

The recommended update is intended to align staff work plans, budget development, and progress reporting with the City Council's current direction. It also resolves the previous question regarding the Police Department Station by consolidating design, funding, and construction into a single Strategic Plan priority rather than listing them as separate items.

The revised priority list reflects the Council's direction and eliminates duplication among the identified priorities. It is important to note that the current Strategic Plan covers a three-year period. An additional workshop will be needed next year to establish priorities for the next Strategic Plan.

Approval of this item does not approve construction, award contracts, appropriate additional funding, or modify the adopted budget. Any future budget appropriations, professional services agreements, design contracts, construction contracts, or other discretionary approvals related to these priorities will return to the City Council as separate items as required.

Fiscal Impact:

The estimated cost of preparing this staff report is \$300.

There is no fiscal impact associated with this staff report. City Council will need to provide direction on how to fund these priorities later if funding has not been identified at the time of this report.

Alternatives:

Provide another order to the list of priorities.
