

Tuscano's Pizza & Pasta Expansion

Purpose:

Tuscano's Pizza & Pasta is a locally owned and operated family restaurant that has proudly served the Beaumont community for many years. We are seeking assistance through the Business Attraction/Expansion Program to support the expansion of our existing restaurant through the construction of a covered patio dining area.

The expansion will allow Tuscano's to increase seating capacity, accommodate larger groups, and provide a comfortable year-round gathering space for local residents, families, youth sports teams, and community organizations. The additional space will enable us to host events and team gatherings that are currently limited by our seating capacity, helping keep residents and visitors dining and spending within Beaumont rather than seeking accommodations in neighboring cities.

This project will directly support the City's objectives by creating additional employment opportunities, increasing taxable sales, and generating greater foot traffic in the downtown area. As customer capacity increases, we anticipate the need to hire additional kitchen, service, and support staff, creating new local jobs and increasing economic activity within the community.

The covered patio will also enhance the overall dining experience and attractiveness of downtown Beaumont by providing a welcoming destination where residents can gather, watch sporting events, celebrate special occasions, and support a locally owned business. Increased visitation to Tuscano's will benefit neighboring businesses and contribute to the continued growth and vitality of the downtown business district.

As a long-standing local business, Tuscano's remains committed to investing in Beaumont, employing local residents, supporting youth sports and community organizations, and providing a family-friendly atmosphere for residents and visitors. We believe this expansion represents a meaningful investment in the City's economic future and aligns with the goals of increasing jobs, sales tax revenue, business investment, and downtown activity.

Qualifications:

B. Sit-down Fine Dining Restaurant

Business Details:

Tuscano's Pizza & Pasta is a family-owned full-service Italian restaurant and sports bar located in downtown Beaumont. Our current operations include dine-in service,

takeout, catering, delivery services, and a full-service bar. We serve a broad customer base including local families, business professionals, youth sports teams, community organizations, and visitors to the area.

Our objective is to expand our existing restaurant by constructing a covered outdoor patio dining area adjacent to the current building. The expansion is intended to increase seating capacity, improve customer experience, and create a versatile space that can be utilized throughout the year regardless of weather conditions.

The proposed patio will provide approximately 1,000 square feet of additional dining space and will include permanent seating, televisions for sporting events, lighting, fans, heaters, and weather protection. The design will complement the existing restaurant and enhance the appearance of the property while creating a comfortable environment for guests.

The additional seating will allow Tuscano's to better accommodate large groups, sports teams, fundraising events, birthday parties, family gatherings, and community meetings. Currently, seating limitations often require larger parties to seek accommodations elsewhere. The expansion will enable us to retain these customers within Beaumont and support additional business activity in the downtown area.

Our target customers include Beaumont residents, neighboring communities, youth and adult sports organizations, local businesses, community groups, and visitors seeking a family-friendly dining experience. The patio will create a destination where customers can gather to watch sporting events, celebrate special occasions, and enjoy outdoor dining in a safe and comfortable setting.

The project represents a significant investment in both the property and the local economy. The increased seating capacity is expected to generate additional sales tax revenue, increase customer traffic to surrounding businesses, and create new employment opportunities within the restaurant. As business volume increases, we anticipate hiring additional kitchen, service, bartending, and support staff.

This expansion demonstrates our long-term commitment to Beaumont and our desire to continue investing in the community while providing residents with an enhanced dining and entertainment experience.
