

Staff Report

TO: Honorable Mayor and Members of the City Council
FROM: Christopher Ramos, Chief of Police
BY: Nathan Lunt, Police Lieutenant
DATE: August 18, 2026
SUBJECT: Approval of a Two-Year Agreement Between the City of Beaumont and Riverside County for an Emergency Services Coordinator with the County of Riverside Emergency Management Department

Description: Request to approve Two-Year Agreement with Riverside Emergency Management Department (EMD) for Emergency Management Services, in the amount of \$195,000 per year for a total cost of \$390,000.

Motion:

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move that City Council approve an agreement for Emergency Management Services between the City of Beaumont and Riverside County EMD in the amount of \$195,000 per year for a total cost of \$390,000.

Recommendation:

Authorize the City Manager to execute an Agreement for an Emergency Services Coordinator (ESC) between the County of Riverside and the City of Beaumont.

Discussion:

Effective emergency preparedness is essential to protecting the community, maintaining continuity of City operations, and ensuring a coordinated response when disasters occur. During a declared local emergency, the City may be eligible for state and federal reimbursement for certain response and recovery costs; however, eligibility depends on having the proper emergency management systems, documentation, training, and procedures in place before an emergency occurs. Maintaining trained staff, current emergency plans, and established Incident Command System (ICS) protocols

strengthens the City's ability to respond effectively while also positioning Beaumont to maximize available reimbursement and recovery resources following an emergency.

The County of Riverside EMD offers local jurisdictions the opportunity to contract for an assigned ESC through a partnership agreement. The contract position provides expertise in establishing and coordinating the City's emergency services planning, response, and recovery. They will provide training and preparedness of City staff to ensure safety and situational awareness during any emergency event.

The Beaumont Police Department oversees the City's emergency preparedness operations. The proposed ESC position will provide 40 hours of on-site service per week.

The ESC will be responsible for reviewing and implementing the Local Hazard Mitigation Plan (LHMP) and the Emergency Operations Plan (EOP). These documents will assist in implementing best practices in emergency management, with the County's assistance and expertise. They will also deliver training for staff, first responders, and key stakeholders, such as Community Emergency Response Team (CERT) and Incident Command System (ICS) principles/structure. Any Riverside EMD grants the city qualifies for will be applied for and maintained by the ESC.

The Riverside EMD will provide 24/7 emergency support through the County's Duty Officer Program.

Fiscal Impact:

A two-year agreement with Riverside County EMD for an Emergency Services Coordinator is \$195,000 per year, for a total of \$390,000. Any additional hours worked beyond 40 hours within a 40-hour work week on behalf of the City of Beaumont will be invoiced at the personnel's hourly rate. Overtime and extraordinary costs shall be calculated at 1.5 times the current employee rate for EMD staff. Cost savings may also be realized through EMD's experience and expertise in applying for FEMA grants and cost recovery.

The first year of the agreement will be prorated from July 1, 2026, based on the start date of the ESC. This is based on the 1st Quarter billing cycle of Riverside County EMD beginning July 1st of each year. Sufficient funds are included in the Police Department FY 2026-27 budget for the first year of this contract. However, staff will include an adjustment in the mid-year budget update to account for this added expense.

Alternatives:

City Council may deny the staff recommendation and provide alternate direction.
